SURVIVING THE STORM

Jodie Nolan was a self-made millionaire by 29, lost it all in unfortunate circumstances, and is now rebuilding her wealth via a successful business and writing career. She has 15 years' experience in financial planning and a masters degree in applied finance and she runs a financial education company. In this self-help book, she uses her "insider knowledge" and experience to provide a step-by-step guide to managing your money. Chapters cover a wide range, from Budgeting for Novices to How to Raise a Money-Smart Child.

*Jodie Nolan,
independent,
